

Snow Crash Virus

Snow Crash is an **imaginary virus** featured in Neal Stephenson's 1992 science fiction novel of the same name.

It affected users in the Metaverse, a virtual world where people represented themselves through avatars.

When the users opened a package of Snow Crash, offered as a drug of sorts, their system would be overloaded with digital data so that the rendering of their avatar would become fragmented, flickering and then be booted out of the Metaverse.

Assembly Instructions:

1. Cut out shape along outside edge.
2. Pre-crease all dashed lines with a ruler and a blunt-edged tool (i.e. a bone tool or pen cap).
3. Fold all dashed lines away from you (i.e. mountain fold).
4. Spread a thin layer of glue on a folded tab.
5. Place tab under corresponding side and press together until glue dries.
6. Repeat until assembled.
