

ILOVEYOU Virus

ILOVEYOU is a **computer virus**, which affected tens of millions of Windows users in 2000. It was sent as an email attachment with "ILOVEYOU" in the subject line.

The attachment was a Visual Basic script, which sent a copy to everyone in the Windows Address Book. Upon execution, it made a number of malicious changes to the operating system.

Assembly Instructions:

1. Cut out shape along outside edge.
2. Pre-crease all dashed and dash-dot lines with a ruler and a blunt-edged tool (i.e. a bone tool or pen cap).
3. Fold all dashed lines (---) away from you (i.e. mountain fold) and all dash-dot (-.-) lines toward you (valley fold).
4. Spread a thin layer of glue on a folded tab.
5. Place tab under corresponding side and press together until the glue dries.
6. Repeat until assembled.
